

51  
J. Smith

Resurveyed the survey recorded on Page 50 and found  
the parties had placed their poles on line *g* and in the line of *ab*  
the supposed corner as mentioned by the Surveyor  
I calculated its course according to latitude and departure and  
found the tract to contain the amount as marked on the plat the  
measurements made are marked in green ink

James L. Calloway  
County Surveyor
