PART OF THE NORTHWEST PART OF THE SOUTHEAST QUARTER,
SECTION 30, T-15, R-11
Bearing for Quarter Section Line taken from Grantees' Deed.

- IP set
- IP Found
- ✕ Drive spike set

Scale 1"=50 ft

Note: During the course of this survey, a casual reference to the Grantees' Deed (Deed Vol. 156:485), indicated that there might be a discrepancy between lines of record, and present lines of occupation. So far as could be determined, the quarter section line which forms one of the property lines in common between present lands, and the lands hereby divided, is correct, and was accordingly used in this survey. Grantees, Ben Weaver, et al, did not wish to have the apparent discrepancy investigated at this time.

I certify that this plat was made from field notes of a field survey completed as of May 11, 1968 as made to divide a small triangular parcel for owners Uriah M. Miller and Mary Miller, Warranty Deed 132, page 2 full, Holmes County Record of Deeds.

Signed: Willard Landis

Willard Landis, Registered Professional Surveyor #4425, State of Ohio.

Bearings are relative to an assumed meridian and are used to define angles only. The bearing of South 88° East for the quarter section line was taken from the Weaver Deed.
